2 System Title

Description: THINSULEX Multi-Foil Insulation System

3

The system has been assessed on the following drawings and documents:

National Physical Laboratory reference PP31/E05100519 - Tested by UKAS approved body using guarded hot-box with battens as required by BR443, giving R Value for calculating thermal values specified by UK Building Regulations 2000 Part L. Limitations of Use: For use in cold or warm ventilated pitched roofs as a multi-foil insulation, as one component of a system that includes other forms of conventional insulation materials.

4 Assessment

The design and method of construction of the system described in (2) above has been examined and as far as it has been shown has been found to be capable of complying with current Building Regulations.

5 Conditions of certification

- 1 The design shown and the materials specified shall not be changed without reference to the local authority responsible for certifying the system.
- 2 The certificate shall be valid for three years or until invalidated by formal notice.
- 3 Where reference is made on a plan to any Code of Practice, British Standard or manufacturer's instruction it shall be construed as a reference to such publication in the form in which it is in force at the date of this certificate.
- 4 This certificate should not be regarded as a formal approval under the Building Regulations.

6 Authority

This system approval certificate is authorised by:

Name: Ian C Childs

Signature: 

on behalf of: Forest of Dean District Council
